

KEVIN McMILLIAN

3110 Dover Street

St. Joseph, Missouri 64506

Phone: (816) 262-5242

Email: klm6140@missouriwestern.edu

OBJECTIVE: To obtain future employment as of January 2009.

QUALIFICATIONS

I am currently working at Walton Construction. I worked as a Project Engineer for three months and am currently working as a Superintendent. As a Project Engineer I wrote and posted RFI's, wrote meeting agendas and minutes, did submittals and transmittals, and took progress pictures. I am also currently working at Home Depot and have worked in many of the departments including Electrical, Plumbing, Kitchen and Bath, Garden, Hardware, Paint, Building Materials and Lumber. I am also currently a student enrolled at Missouri Western State University. I am a senior majoring in Construction Engineering. I have had many classes that have increased my knowledge in the construction field. The classes I have taken and work experiences I have had make me well rounded and knowledgeable in a wide variety of fields. I am very comfortable working on and around heavy equipment. I have also worked for Missouri Air National Guard, Proffer Concrete Construction, Davis Custom Homes and Contractors Plumbing Services.

EDUCATION

B.S. Construction Engineering Technology, Missouri Western State University
(expected graduation date Dec. 2008)

Graduated Lafayette High School in top 15% of class

EMPLOYMENT

Internship, Walton Construction Company

I am currently working for Walton Construction Company at East Hills Mall. I worked as a Project Engineer for three months writing and posting RFI's, writing meeting agendas and minutes also attending the meetings, I also did submittals and transmittals, and took progress pictures. I used the Constructware Program and am knowledgeable with this program. I am currently working as an Assistant Superintendent at East Hills Mall in St. Joseph. I have taken the click safety defensive driving course. I plan to attend the OSHA 10 hour.

Sales associate, at Home Depot

I am also currently working Home Depot in the electrical department. I have worked and am knowledgeable in many departments including: electrical, plumbing, kitchen and bath, garden, hardware, lumber, building materials, paint, and flooring. I have been employed at home Depot for three years.

Auto CADD and GIS

I worked for the Air National Guard updating the Auto CADD drawings and converting them into the GIS system.

Laborer, Proffer Concrete Construction

I experienced everything involved in concrete construction flat work. We tore up old concrete, formed, graded, laid rebar, tied rebar, poured, and finished concrete. I have had experience with all the tools that are required as well.

Laborer, Davis Custom Homes

We completely gutted remodeled and repaired old homes. We did everything including electrical, plumbing, flooring, doors, windows, framing, and finishing.

Laborer, Contractors Plumbing Services

We did a variety of jobs digging trenches and laying pipe, cutting out concrete floors, running a jackhammer, laying sidewalk, digging under footings, laying and finishing concrete, etc.
