

Carter-Waters is pleased to announce the acquisition of CMA Supply Company. The key to our acquisition is the combination of two talented organizations committed to our customers.

Carter-Waters was started in 1922 by Kemper Carter and Bert Waters and has become a leading distributor of construction supply materials. Since then, Carter-Waters has expanded to 17 locations throughout Kansas, Missouri, Illinois, Ohio, Indiana, and Kentucky offering service throughout the Midwest.

This expansion has allowed Carter-Waters to create growth and opportunity in six states while remaining a top service provider of construction materials.

Technology and customer service just reached a new exciting level with the release of the new Ecommerce website. Carter-Waters.com offers B2B and B2C services for new and existing customers. Yet, another valuable tool for customers, while setting the standard of excellence for everyone.
